

Class A UAPL (Rotorcraft) up to 25kg (Practical Training)

Course Content: Designed for candidates who have already passed the CAAS UAPL Theory Test or require additional practical training before attempting the official practical assessment. The programme covers all CAAS practical assessment requirements, including UAS pre-flight and post-flight checks, manual flight manoeuvres without GNSS assistance (precision hovering, climbing and descending circuits, figure-of-eight, and precision landing), mission planning, and emergency procedures. Training is conducted using a Class A rotorcraft (up to 25kg), allowing trainees to gain experience operating larger unmanned aircraft.

Target Audience: Working professionals require by law to hold a UAPL for commercial drone operations; site engineers, project managers, and surveyors deploying drones for inspection or mapping; videographers and content creators operating commercially; security and emergency response personnel; company-sponsored employees upskilling for business needs; career changers and fresh graduates from Polytechnic or ITE seeking to enter the drone industry; and SkillsFuture learners pursuing new competencies in an emerging technology field.

Entry requirements: Learners **must** have successfully attained the Class A UAPL (Rotorcraft) up to 7kg license.

Learners are assumed to be minimum **16** years old

Learners shall minimally have the following skills and knowledge WPLN4 – English – Level 4 for reading, listening, speaking and writing)

Course Duration: 24 Hours. 3 Days. 9 AM to 6 PM. Practical training – 23 Hrs; Practical evaluation – 1 Hr. 100% Attendance is required. Passing criteria: 100% in Practical evaluation. Medium of Instruction – English.

Course Schedule: Kindly visit our website for latest schedule.
