

Class A UAPL (Rotorcraft) up to 7kg (Theory + Practical Training)

Course Content: The course is a comprehensive 4-day program covering both the mandatory theory and practical requirements for the Unmanned Aircraft Pilot License (UAPL). Delivered in alignment with the CAAS Required Syllabus, the theory component spans six modules: General UAS Knowledge, Principles of Flight, Air Law, Navigation & Meteorology, Human Factors, and Safety & Operations, equipping trainees with the foundational aeronautical, regulatory, and operational knowledge needed for safe UA operations. The practical component covers UAS checks, manual flight manoeuvres, mission planning, and emergency procedures, conducted on rotorcraft (multi-rotor) UA.

Target Audience: Working professionals require by law to hold a UAPL for commercial drone operations; site engineers, project managers, and surveyors deploying drones for inspection or mapping; videographers and content creators operating commercially; security and emergency response personnel; company-sponsored employees upskilling for business needs; career changers and fresh graduates from Polytechnic or ITE seeking to enter the drone industry; and SkillsFuture learners pursuing new competencies in an emerging technology field.

Entry requirements:

Learners are assumed to be minimum **16** years old

Learners shall minimally have the following skills and knowledge WPLN4 – English – Level 4 for reading, listening, speaking and writing)
